

ISO 9001 Quality Policy

Andigestion Ltd specialises in the generation of renewable energy and supply of digestate nutrients from processing organic waste.

The company's quality management system concentrates upon error prevention, by investigating processes, identifying errors and opportunities for errors and implementing corrective and preventative action to correct and avoid such occurrences.

The company defines quality as the conformance of services to established and documented requirements derived from Client needs, employee expertise and experience. Systems are open to constant examination and review by all company personnel and approved third parties enabling observations to be made and incorporated, which provide for continuous improvement. The fundamental components of our Quality Management System are prescribed in the policy statements below:

- Committed to comply with industry standards.
- Committed to implementing a framework to ensure Quality objectives are met and reviewed
- Monitoring quality through a program of laboratory testing.
- Communication and training of staff, contractors, suppliers and customers to enhance awareness and commitment to the Quality Management System.
- Suppliers to the company will be actively encouraged to improve the quality and reliability of their services.

The company is proud of its good reputation for responsible practices and dedicated customer care, which are a result of the company's ethical culture, skilled committed staff, and quality control over its services. It is the company's policy to seek to operate to these standards continuously and to implement and operate fully the BS EN ISO 9001 quality assurance standard through registration and annual review.

The service scope for Andigestion Ltd is: The Recovery and Supply of Renewable Energy and Nutrients from Organic Waste

The company complies with all legislation relevant to its particular industry sector together with the Health and Safety at Work Act 1974.

It is the company's belief that, in applying these Standards, policies and procedures it will be able to operate to the requirements of its customers and industry requirements accordingly.

Company management will ensure that this Quality Policy is implemented, and the Policy will be reviewed annually.
